UNEP Eco-Peace Leadership Program

□ What is the programme

- Leadership program is provided for those leaders who wish to get solution for the facing environmental problems in their region through the on/off line learning process.
- Providing the opportunity to learn state-of-art technology and information through the programme and sharing the experience of other CSOs.
- Contributing the improvement of environmental conditions in Asia Pacific region with the authentic support from UNEP and Eco-Peace Leadership Center.
- Korea will share its precious experience with other leaders in AP regions to solve the various environmental disasters and problems.

□ How to work

- The programme will be carried out through a man to man education between a trainee and its advisor
- Most of the programme will be done through the on-line education and training between a trainee and its advisor.
- The off line education and training consists of orientation, field visit by advisor, conference, which will be going on within a week.
