

Professor Mohd Nordin Hasan is Emeritus Professor in Environment and Development at Universiti Kebangsaan Malaysia (National University of Malaysia) and Fellow of the Academy of Sciences Malaysia. He has contributed significantly towards understanding of the inter-linkages between the environment and development, and the sustainability of development in Asia and the Pacific. He is especially interested in the relationships between ecosystem services and human wellbeing, particularly on the role of good ecosystems management for sustainable development. He has extensive experience in conservation biology, tropical forest ecology, and has done extensive work on indicators of ecosystem status and on sustainable development. He represented the Government of Malaysia at a number of international fora including the United Nations Commission on Science and Technology for Development (CSTD), the RAMSAR Convention, and on Technical Working Groups responsible for preparing the Malaysia Plans.

Professor Nordin is currently a member of the China Council for International Cooperation on Environment and Development (CCICED) task force on ecosystem services and management. He serves on various UNDP evaluations of GEF Projects in Malaysia, and was on the Technical Advisory Panel of the Asian Development Bank's Greater Mekong Sub-region, Core Environment Programme. He has a large number of publications on a wide range of topics on the environment and development. Professor Nordin was the founding Director of the Institute for Environment and Development, Universiti Kebangsaan Malaysia and has held a number of important honorary positions, including Adjunct Professor at the Centre for Resource Environmental Studies at the Australian National University, Regional Vice Chair, Commission on Ecosystem Management, and Global Thematic Leader on Ecosystem Status Indicators, of the Commission on Ecosystem Management of IUCN, The World Conservation Union. He is currently Director, International Council for Science (ICSU), Regional Office for Asia and the Pacific.
